Description of Charges

This illustration is based on the following charges:

Premium Allocation Charge

This is a premium-based charge (which may vary by product, policy year, premium size, premium frequency and premium payment method). After deducting this charge from your premiums, the remainder is invested to buy units. Please read Sales Literature for more details.

Fund Management Charge (FMC)

This is a charge levied as a percentage of the value of assets and deducted at the time of computation of daily unit prices. In the long term, the key to building great maturity values is a low FMC. The Fund Management Charge is the same across all the fund options.

Policy Administration Charge

This charge is levied to cover regular administration costs. This charge may vary by product & premium size. Please read Sales Literature for more details.

Risk Charge

This is a charge levied monthly to cover the cost of providing you with the Death Benefit, Extra Health Benefit, Extra Life Benefit, Extra Disability Benefit and any other Mortality Benefits, if applicable, on your policy. The amount of the charge taken each month is based on the benefits insured and your age.

Service Tax & Education Cess

The Government of India levies a Service Tax & Education Cess on the amount of any charges deducted from your policy. We collect this tax along with the charges. The tax rates and its applicability will be as notified by the Government from time to time.

NOTES:

§ The Sum Assured stated above is based on the information provided and may vary as a result of underwriting.

§ Please read the sales literature provided.

§ Any statutory levy or charges (such as Service Tax & Education Cess) including any indirect tax may be charged to the Policyholder either now or in future by the Company and such amount so charged shall become due and payable and shall be subject to the same terms and conditions as applicable to payment of premium.

§ The benefits illustrated assume that all premiums that are due over the premium paying term will be paid and no withdrawals will be made during the policy term. In case premiums are not paid for the premium paying term at the original level or withdrawals are made during the policy term, the illustrative benefits will differ.

§ This contract is designed for long term savings and is not designed for short term investment. Should you need to surrender your policy in the short term, any surrender benefits may be less than the premium(s) you have paid.

§ A policy may be surrendered at any time in the first five years of the policy but the amount payable on surrender will be paid out only on completion of five policy years, subject to prevailing regulations.

§ In case you do not pay premiums for the full premium paying term, your policy will be discontinued or will become paid-up depending on the premiums paid previously. Please read the sales literature for more details.

§ The commission amount as described in the projection statement is paid from the charges deducted on your policy.

§ 'Premium Allocation Charge Rates' and 'Risk Benefit Charge Rates', if applicable, are guaranteed for the lifetime of the policy. All other charges may be altered during the lifetime of the policy with prior approval from the regulator.

§ Clawback Additions would be payable at the point of exit after the completion of five years, if and only if, it is required to meet the reduction in yield requirements prescribed by the regulators. Exit would mean exit by way of death, surrender or maturity whichever is earliest.

§ The bank has disclosed to make all the commission (in the form of up front and trail commissions) payable to them for the policy recommended to make.

§ I, _____, hereby declare that I have read and understood the information with respect to the above, have understood the inherent features of the policy, the applicable charges and the investment risks under the policy, before entering into the contract.

ILLUSTRATION OF FUTURE BENEFITS

This illustration has been produced by HDFC Standard Life Insurance Company Limited to help you understand the benefits of your HDFC SL Crest. These illustrations must be read in conjunction with the sales literature, which describes the features of this product.

The values shown are for illustration only. What you actually receive will depend on what happens over the future lifetime of your policy, particularly investment returns. The illustration shows what you could get back using two assumed rates of investment return. These rates have been specified by the Life Insurance Council.

Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your life insurance company. If your policy offers guaranteed returns then these will be clearly marked "guaranteed" in the illustration table on this page.

If your policy offers variable returns then the illustrations on this page will show two different rates of assumed investment returns. These assumed rates of return are not guaranteed and they are not upper or lower limits of what you might get back as the value of your policy is dependent on a number of factors including future investment performance.

Whilst future investment returns would significantly influence policy benefits, other factors such as charges and taxes also have an impact on your benefits. Guaranteed benefits are available provided all premiums are paid, when they are due. The illustrative benefits below assume that all premiums that are due have been paid.

All amounts are in Indian Rupees.

Illustrative Benefits on Maturity

On the survival of the Life Assured until the Maturity date, the illustrative Maturity benefits are as shown below.

	Guaranteed Benefit		Non-Guaranteed Benefit		Total Maturity Benefit	
	Assumed Investment Return		Assumed Investment Return		Assumed Investment Return	
Date of Maturity	Crest - Free Asset Allocation Option	4% p.a.	8% p.a.	4% p.a.	8% p.a.	
21-Oct-2024	0	242,061	338,381	242,061	338,381	

Upon this payment, the policy terminates and no further benefit becomes payable.

IN THIS POLICY, THE INVESTMENT RISK IS BORNE BY THE POLICYHOLDER AND THE ABOVE INTEREST RATES ARE ONLY FOR ILLUSTRATION PURPOSE.

Act shall after the expiry of two years from the date of commencement of this Act and no policy of life insurance effected after the coming into force of this Act shall, after the expiry of two years from the date on which it was effected be called in question by an insurer on the ground that statement made in the proposal or in any report of a medical officer, or referee, or friend of the insured, or in any other document leading to the issue of the policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the policy-holder and that the policy-holder knew at the time of making it that the statement was false or that it suppressed facts which it was material to disclose:

Provided that nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

17. Non-negative Claw-back Additions

Upon the exit from a Policy at any time on or after the completion of five Policy years, we will calculate the gross yield, the net yield and the reduction in yield based on the actual returns. If the reduction in yield is greater than as required under the regulations, we will add non-negative Claw-back Additions to the Fund before payment of Benefits to ensure compliance with the reduction in yield requirements as specified in Regulation 37(d) of IRDA (Linked Insurance Products) Regulations, 2013. Exit from a policy would mean Death or Surrender or Maturity, whichever is earliest.
