WORK EXPERIENCE

MasterCard Technology

Senior Technical Program Manager/ Delivery Manager

Nov 2019 – Jun 2024

- 11+ years of experience in IT domain and 4+ years of experience as a **Senior Technical Program Manager**, with expertise in Waterfall & Agile methodology and served as (**SAFe® Certified**) Scrum Master to multiple agile squads as well as **Delivery Manager for Mastercard Quarterly Releases for Payment Networks**.
- **Certified Scrum Master (CSM)** with a strong understanding of software development processes, including SDLC, CI/CD, DevOps, Git, **Microsoft Azure Cloud** and Mainframes for Mastercard Debit Switch.
- Demonstrated success in **leading cross-functional teams** to deliver complex projects on time and within scope and resource requirements.
- Managed the **coordination, project health, schedule** and stability of medium-sized technology projects across regions and time zones.
- Organized and facilitated **Scrum ceremonies** – Sprint Planning, Daily Stand ups, Retrospectives, Release Planning, Sprint demos and Product Backlog grooming.
- Mentored and motivated Agile squads to support key business objective delivery like monthly and quarterly releases as well as **modernization** from legacy systems to **java-based and Microsoft Azure cloud** applications.
- Increased Productivity and **Efficiency of the agile squads by 43%** by implementing more efficient processes and efficient vendor and resource capacity planning.
- Assessed project parameters and milestones to furnish status reports, **addressing delays or constraints**.
- Took **Initiatives and applied Innovation** in improving processes and migration to Microsoft Azure cloud.
- Showcased the efforts done by the scrum team at **regular intervals to stakeholders**.
- Coached teams along with leadership to identify areas of improvement and guided both to address those gaps. Also, conducted training courses for Teams to understand **Agile best practices** and make them understand how to **improve team's delivery and performance**. And enabled teams to become organized and self-managed through **consistent coaching**.
- Produced **comprehensive management reports across IT systems** for continued analysis and evaluation.
- Led planning, development and execution of project schedules, ensuring **compliance**, resolved issues or **impediments**, and monitored project **risks**.
- Review project plans and assist software engineers in managing **implementation processes**.
- Proven ability to effectively **communicate with stakeholders** at all levels & **facilitate collaboration** with **technical and non-technical teams**.
- Built and maintained **courteous and meaningful working relationships**. Diffused challenging situations using **conflict management** techniques.
- Strong **problem-solving skills** and a track record of identifying risks and implementing mitigation strategies to **ensure project success**.
